

Information for all our customers

Warning against GeGa copies

GeGa products, in particular the cutting nozzles are copied worldwide. The copies do not provide the customer with the high quality of the original GeGa product. We would therefore ask that all our customers are aware of these inferior GeGa copies.

Tests were carried out at our customer's site to demonstrate and verify that the copies do not meet the design specifications they also proved dangerous since they do not comprehend to the European Safety Regulations.

GeGa is certified according to the DIN EN ISO 9001: 2000 and possess worldwide product liability insurance. With over 40 years of experience we are able to guarantee a maximum of security for our products.
